

# Your first choice for Hygienic Wall Cladding

We are one of the UK's leading hygienic wall cladding suppliers, specialising in the supply and installation of wall protection systems.

## About Saniclad

**Saniclad Ltd is one of the UK's leading hygienic wall cladding suppliers and installers.**

We specialise in the supply and installation of wall protection systems such as SaniClad, SaniBoard and SaniShield.

Our hygienic cladding products are manufactured to the highest standards in Germany and as such all of our products comply with British / EU Standards and with ISO9001.

**We are trusted both in the UK and globally.**

We are the only hygienic cladding company that offer a **20 Year Product & 1 Year Labour Guarantee.**

We have over 20 years experience in the plastics, PVC and cladding industry so our team of experts can guide you to the right product at the right price.

Our installation team has fitted PVC wall and ceiling sheets across a wide range of businesses large and small, this ranges from well known multinational food brands to local childcare nurseries.

We take pride in every job we take on, no matter how big or small. So we will deliver a superior service, before, during and after sales.

Our low prices coupled with our high-quality products and customer service makes us the choice provider for hygienic cladding systems.

**The Saniclad Team**

|   |                                  |
|---|----------------------------------|
| <b>1.5MM<br/>PVC HYGIENIC WHITE<br/>WALL CLADDING</b>   | SKU: HYG24415                    |
|   | AVAILABLE LENGTHS: 2.44m   3.05m |
|   | COLOUR: WHITE                    |
| Our entry-level white 1.5mm hygienic wall cladding sheets offer a wipe-clean, satin surface which hide surface blemishes in the substrate – please note this sheet is not designed to smooth out structural substrate imperfections, but just cover and seal off the substrate. |                                  |

|   |   |
|---|---|
| <b>2MM<br/>PVC HYGIENIC WHITE<br/>WALL CLADDING</b>   | SKU: HYG2442                            |
|   | AVAILABLE LENGTHS: 2.44m   2.8m   3.05m |
|   | COLOUR: WHITE                           |
| This PVC cladding sheet is ideal for refurbishments when looking to cover slightly less than perfect substrate. Frequently chosen to be thermoformed (heat folded) around corners, this is can be neatly fitted around edges to give that 'wrap around' look. |   |

|  |   |
|--|---|
| <b>2.5MM<br/>PVC HYGIENIC WHITE<br/>WALL CLADDING</b>  | SKU: HYG24425                           |
|  | AVAILABLE LENGTHS: 2.44m   2.8m   3.05m |
|  | COLOUR: WHITE                           |
| By far the most popular hygienic wall cladding sheet, specified by Architects and Quantity Surveyors throughout the UK & widely recognised premium alternative to Altro WhiteRock. Flexible enough to be thermoformed around angles and edges to give that 'wrap around' look. |   |

|  |                                  |
|--|----------------------------------|
| <b>3MM<br/>PVC HYGIENIC WHITE<br/>WALL CLADDING</b>  | SKU: HYG2443                     |
|  | AVAILABLE LENGTHS: 2.44m   3.05m |
|  | COLOUR: WHITE                    |
| If you're looking for a hygienic wall cladding sheet that will cover all wall imperfections, Saniclad's 3mm hygienic wall cladding sheet is ideal. One of the most popular choices for those who require a smooth surface and robust protection against a less than perfect substrate. |                                  |

|  |                                |
|--|--------------------------------|
| <b>10MM SANI-BOARD™<br/>HYGIENIC WALL<br/>SYSTEM</b>   | SKU: SB244                     |
|  | AVAILABLE LENGTHS: 2.5m   3.0m |
|  | COLOUR: WHITE                  |
| A versatile white 10mm hygienic board that can be used to line poor quality walls, reduce the need for plasterboard or hide services. The material can be easily machined and cut with a jigsaw. The boards are installed directly on to a metal grid specifically designed for us to bond to. |                                |

# BIOMAX

## ANTI-MICROBIAL CLADDING

Designed specifically to help combat the spread of disease and infection in vulnerable areas, BIOMAX incorporates Silver Ion technology which is added at the manufacturing stage ensuring full coverage inside and out.

Famed for its anti-bacterial properties, Silver Ions naturally prevent the spread of disease and directly kill harmful bacteria.

### OUR MOST PROTECTIVE, BACTERIAL RESISTANT HYGIENIC WALL CLADDING SHEET.

Recently inspected and certified by an independent laboratory, tests shows our BIOMAX hygienic wall cladding reduced *Staph aureus* by 99.98 % and *SARS-COV-2* by 87.95%.

### EXCELLENCE IN HYGIENIC CRITICAL ENVIRONMENTS

BIOMAX is the ideal solution for maintaining hygiene and safety in critical environments such as medical, healthcare, veterinary settings and more.

Apply today and take advantage of unique special offers when you become a trade member with Saniclad.

## Loyalty Club Power up your spending

When you buy Saniclad products and services we are powering up your spending by rewarding points for every £1 you spend.

You can then apply the collected points to create discounts on future purchases.

We are also rewarding exclusive points when customers sign-up to our loyalty scheme – and points for every time you leave a product review.

## Expert Fitters Award winning products

Not only do we pride ourselves on the products we supply, with many having 20 years guarantee - we also have expert fitters on hand no matter how big or small the job may be.

Our expert fitters and installers are ready to help transform your space with Saniclad's hygienic wall cladding. We install these products everyday of the year for some of the world's largest organisations, including the NHS, McDonalds and Costa Coffee.

We pride ourselves on the quality of our work and the value we provide and happy to provide your free hygienic wall cladding installation quote today!
